Visual Expression

We have seen how video has evolved to support and extend the medium of song. Create a visual presentation that supports a poem using images and text.

The poem "The Path of our Sorrow" and the song "Ride Forever" share a common theme and mood, though they are about very different times and places.

Create a visual presentation that supports the message of one of the poems.

Use google presentations or lucid chart to create your presentation.

What your presentation needs:

1. The title of the poem you are presenting
2. Five quotes from the poem
3. Five or more illustrations to support the quotes

Use at least five images and five text passages that demonstrate the theme, mood, and tone of the poem and lyric.
